

EAA Chapter 1373 Newsletter

September, 2017

Next Meeting Notice: Saturday, September 9th, 10:00 AM, **Bill Albright's hangar at Delta Blake Field.** (<http://www.eaa1373.org/> - click on "Calendar" for map and directions

There won't be a formal program for the meeting since there is a Delta Blake fly-in on September 9th hosted by Smiling Aviation, so we can just have a short review of old and new business. Clay Caywood's RV-6A project is now in Bill's hangar so he can review progress on it.

A notice for the Delta Blake Smiling Aviation Fly-In will be forwarded in a subsequent email.

Help Needed for the Delta Blake Fly-in – Anyone with a large grill or capable of cooking breakfast for a crowd is requested to contact Smiling Aviation at 970-874-5181.

First Flight for Bill Albright's RV-9A

Bill's RV-9A, N975GP, made its maiden flight on August 11th. Bill was accompanied by Jeff Buchanon as a "Qualified Pilot" under the Additional Pilot Program. Flight was mostly uneventful and the plane flew beautifully except for running a little hot. Lowell Manary has also accompanied Bill on a couple flights (as a QP) to work through mixture richness issues. Now to get through the 40 hours of Phase I, fairings, and paint!

Progress Reports

Ray Veatch is done with construction on his Zenith 750 and has a date with the DAR on August 31st.

Dwayne Williams' KR-2 has its belly flap installed so we hope to see it flying soon.

Bernie Hartwell sent in this picture of a grass strip in Marble, CO. He wishes he was flying his RV-14, but in this case he got there by truck. But it looks like a beautiful strip.

List of Club Officers

President - Gerald Kramer 970-249-8209 jmkramer@bresnan.net

Vice President - Bill Albright 435-720-3094 albriwc@hotmail.com
